

P1: i will take you up to see my collection. [...] this one lights up, and this one is the Christmas one. this one i got for being pregnant...

P4: things get overwhelming and [they] disappear [...] Cap doesn't do that [...] he comes everywhere with me.

P11: i'm looking at [...] a series of images that well my husband printed off of us with our friends and family, and as i say, there is me and Mickey Mouse. so (laughs) now that you make me think about it, it's like there's me and my mum (gestures to image), there's me and my friends (gestures to image), there's me and Mickey Mouse so now, when you asked me if he's a part of the family, it looks like it.
